## PREPARING FOR WAR

Great Activity at the Brooklyn Navy Yard.

### GETTING VESSELS READY FOR SEA

It May Not Presage a War With Spain, but the Spanish Minister at Washington Says That Such a Thing Is Possible—A Decisive Battle Expected in Cuba—Other Cuban War News.

NEW YORK, Nov. 18.—The Advertiser says: Though the authorities at the Brooklyn navyyard refused to give any explanation of the great activity there, it is generally believed that instructions have been received from Washington to have every available vessel ready for sea.

The most experienced commanders at the yard believe that there will not be any conflict with Spain. They laugh at the idea of Spain attempting with her ancient fleet to attack the navy of this country. It is thought by them that the present activity simply presages the evolutions for the winter cruise.

In any case the men in the construction department are working night and day to put all the ships in perfect condition. In the navy yard more than 200 are at work on the monitor Puritan, which will go into commission at the end of the month and then join Admiral Bunce's fleet.

The battleship Texas is now being repaired in the timber dock. The inquiry into the accident may be completed by Thursday.

### War With Spain Possible.

NEW YORK, Nov. 18.—A special to The World from Washington says: Senor Dupuy de Lome, the Spanish minister, was asked: "Do you believe there is any danger of a war between the United States and Spain?"

"It is possible," the minister answered. "It would be a terrible one. One can foresee its beginning, but not its end."

### CRISIS IN CUBA.

A Big and Decisive Battle Soon Expected to Take Place.

KEY WEST, Nov. 18.—Three hundred Cuban negro firemen from the Havana fire department left Havana Sunday for the Vuelto Abajo district, under orders from General Weyler. They arrived at Artemisa under command of Colonel Antonio Gonzales Bora.

Leaving Artemisa, they proceeded to Santana and Gabriel, where they remained as a guard for those places, there being no Spanish troops there.

General Weyler has 12,000 soldiers and 14 pieces of artillery at his command.

In the battle recently in the Rubi mountains, when Maceo was attacked, it is said there were 300 soldiers killed and several petty officers wounded.

General Weyler, it is said here, has returned to Artemisa, the principal point on the trocha. Generals Maceo and Gomez are believed here to be concentrating their forces to attack the trocha in a few days, when, it is expected, the biggest battle of this rebellion will be fought.

It is reported here that the officers and crew of the Raleigh have been refused permission to leave the ship. There is a strong feeling here that prompt action may be necessary soon.

### SIX TONS OF DYNAMITE.

That Amount Shipped From New York to Captain General Weyler.

NEW YORK, Nov. 18.—The filibustering steamship Bermuda, which recently obtained a Mexican register and is now called the Bonita Juarez, is said to be preparing to take an expedition to Cuba. It is likely that she is under control of the Cuban junta. She has landed several expeditions on the Cuban coast.

The Spanish steamer Habana, which left this port last Tuesday, carried six tons of dynamite for the captain general of Cuba. The Cubans think that General Weyler will use the dynamite in bombs to be planted in all ways of access to the hills of Pinar del Rio.

### DISPATCHES FROM HAVANA.

As Usual They Show the Marks of the Weyler Censorship Bureau.

HAVANA, Nov. 18.—No definite news of the whereabouts of Captain General Weyler has been received here, though scraps of information regarding the troubles of the insurgents in Pinar del Rio are given to the public.

It is said that Antonio Maceo received a slight flesh wound in an engagement at Lechuza. The insurgent general has again established a position at Eruijo, in the Brujito mountains. The leader, Vidal Ducassis, brother of an insurgent brigadier, it is further said, has been seriously wounded and was carried to the Brujito mountains.

Black smallpox is alleged to be raging in the ranks of the insurgent forces in Pinar del Rio.

The noted leader, Perico Delgado, is reported to have been seriously wounded in the right lung with a Mauser bullet, and has in consequence developed consumption.

The chief of Maceo's staff, General Jose Mero Argenter, a man of great influence among the insurgents, is still another reported victim of a serious wound, received at Saroa. With other wounded leaders he was carried to Bijo Menendez, a retreat in the swamp.

Maceo's forces, it is alleged, have been divided and distributed in different parts of the province, on account of

the active pursuit kept up by the Spanish, and much confusion has resulted in the distribution of ammunition, many of these having Mauser rifles receiving Remington cartridges, and vice versa.

The surgeon general of the Spanish army in Cuba makes the following report for the second 10 days in October: During the 10 days, 503 died, of whom 356 had yellow fever and nine died from wounds. Remaining at the end of the 10 days 13,657, of whom 1,058 have yellow fever and 755 are wounded. Mortality per 1,000 when compared with the total strength of the military establishment 3.14. Proportion per 1,000 of those treated in relation to total strength 136.71. Death rate per 1,000 to number treated 22.99. Yellow fever proportion per 1,000 of such cases to total strength 12.73. Death rate per 1,000, 174.68.

### FOUND THEIR MAN IN CANADA.

He Refused to Come Back and Says He Has Committed No Crime.

ST. THOMAS, Ont., Nov. 18.—Last Thursday a man registered at the Grand Central hotel here as C. S. Cully of Farmount, Ind. He opened an account at the Imperial bank and placed \$1,500 to his credit.

Yesterday C. C. Lyons of Muncie, Ind., J. A. Friedlander and H. S. Jones of Cincinnati arrived at the hotel and identified Cully as C. S. Kelly. They allege that Kelly was in business in Muncie and that he bought goods from Friedlander and sold the stock and disappeared.

Kelly claims that he left sufficient behind in Muncie to settle his debts. He refuses to surrender any of his money, drew his deposit from the Imperial National bank and left for Windsor with his wife. The other parties returned home and threaten extradition proceedings.

### LIBERIA DEFIES GREAT BRITAIN.

An English Steamer Fired on Off the Coast of Cape Palmas.

LIVERPOOL, Nov. 18.—The trouble between Great Britain and the republic of Liberia is apparently assuming a phase that will call for vigorous measures on the part of the former. The British steamer Benin has arrived here from the west coast of Africa, and reports that she was not allowed by the Liberian authorities to communicate with Cape Palmas. As the Benin approached that place she was fired upon by the Geronamah, the sole vessel comprising the navy of Liberia.

The reasons for the refusal of permission for the Benin to call at Cape Palmas and for the action of the Liberian gunboat are unknown.

### Mangled in a Corn-Husker.

CROWN POINT, Ind., Nov. 18.—John Albrich, a young man living at Palmer, near this city, while running a corn-husker, had his right arm caught in the machinery and horribly mangled. ## TORTURED A MISER.

An Old Man Brutally Treated by Robbers.

### GOT NOTHING FOR THEIR CRIME.

Their Victim Taken to a Hospital and May Not Recover—Woman Robbed by a Masked Negro Cotell Granted a New Trial—An Unknown Man Killed—Other Ohio State News.

CLEVELAND, Nov. 18.—Monday night three burglars broke into the house occupied by John Mirka, a miser, at 448 East Prospect street. Mirka is 72 years old. He lives alone and has generally been credited with having large sums of money secreted in his house. Upon his refusal to tell the burglars where his money was hidden he was beaten in a terrible manner.

This punishment failing to force the information from the old man he was bound, gagged and a lamp flame applied to his feet until the flesh was literally cooked. The old man writhed in agony, but protested he had no money. The fiends then applied the flame to the suffering man's hands and then to his body until he finally sank into unconsciousness, in which condition he was found early yesterday morning. It is believed the burglars got nothing. Mirka was taken to a hospital.

### ROBBED A WOMAN.

The Robber Waited Until the Husband Left the House.

COLUMBUS, O., Nov. 18.—An unknown colored man perpetrated a sensational robbery at about 6 o'clock yesterday morning. William Rownds of 278 Eighteenth street left his home at that hour and no sooner had he left than the man, whose face was concealed by a handkerchief, rang the door bell and presenting a revolver at Mrs. Rownds' head demanded that she give him all the money she had, threatening to blow her brains out if she did not.

Mrs. Rownds went to her bedroom, followed by the robber, who continually kept her covered with the revolver, and secured all the money she had and gave it to the fellow, who gruffly thanked her and left.

### NEW TRIAL FOR COTELL.

Second Hearing For the Murderer of the Stone Family.

COLUMBUS, O., Nov. 18.—Romulus Cotell will get a new trial, and he will be taken back to Medina county at once for the second hearing. The supreme court has made this decision.

The entry on the judgment slip given out reads as follows: "The judgment is reversed, and the case remanded for a new trial on the authority of Kelch vs. the State, for error in the charge of the court as to the degree of proof required to establish a defense of insanity. No other error is found in the record." Cotell murdered the Stone family last summer.

### His Last Sleep.

LIMA, O., Nov. 18.—Yesterday morning about daylight the dead body of a man with the upper part of his skull knocked off was found in the Chicago and Erie yards. From papers in his pockets he is supposed to be John Donahue of Huntington, Ind., who was seen here Monday. Some money was found on his person. He is thought to have fallen asleep on the track.

### Crucible Steel Plant.

CLEVELAND, Nov. 18.—The Cleveland Steel Company of this city, owned by the Rockefellers, is erecting a big crucible steel plant, and will manufacture that article on a large scale. It will be the only concern of the kind in this country, as all crucible steel, which is used for the manufacture of cutlery, fine tools, etc., is now imported from Sweden.

### Mills Start Up.

YOUNGSTOWN, O., Nov. 18.—A number of the mills started yesterday and the city resembles its old time activity. ### Sara Making a Bust.

Sarah Bernhardt is executing a bust of Victorien Sardou for the salon of 1897.

### MR. BRYAN TO LECTURE.

He Signs a Contract to Deliver a Number of Nonpartisan Addresses.

LINCOLN, Neb., Nov. 18.—It has been definitely arranged that William J. Bryan is to take the lecture platform and his first address will be delivered at Atlanta early in December. His route as far as it has at present been arranged will be, after leaving Atlanta, Jacksonville, Savannah, Charleston, Augusta, Birmingham and New Orleans. After leaving the latter city Mr. Bryan will go through Texas then on to California and Oregon and will not reach the cities of the east before the latter part of February, 1897.

The man behind the enterprise is V. E. McBee of Norfolk, the superintendent of the Seaboard Air line. On election night Mr. McBee, who had been a hard worker for the Bryan ticket, wired to this city, offering Mr. Bryan a very large amount for a series of lectures in case the election should turn against him. No attention was paid to the matter at that time by Mr. Bryan, but after the defeat of the Democratic ticket had been formally acknowledged by the Democratic leaders, Mr. McBee once more renewed his offers, negotiations were begun and the result has been that Mr. Bryan has signed a contract for a series of lectures under the management of Alexander Comstock, who is the representative and associate of Mr. McBee in the enterprise.

The terms of the agreement from a financial standpoint have not been made public, but it is reliably understood that the remuneration which Mr. Bryan is to receive will exceed the salary he would have received as president of the United States in the event of his election to that office.

Arrangements are already under way to have the delivery of Mr. Bryan's first lecture in Atlanta made the occasion of a great demonstration, which will be in the nature of a monster reception. The lectures to be delivered by Mr. Bryan will be nonpartisan in their character, and will for the most part be upon governmental and social topics, as it is expressly stipulated in the contract that the tour shall have no political aspect or coloring.

### KING OSCAR'S KINDNESS.

He Erects a Monument to the Memory of Two Americans.

WASHINGTON, Nov. 18.—King Oscar II of Sweden and Norway has given further evidence of his kindly feeling to Americans by erecting a granite monument on the spot where Mr. and Mrs. Daniel W. Youmans of New York city met their death on July 4 last. The circumstances of King Oscar's graceful act are reported to the state department with photographs of the monument erected by him.

Mr. Youmans and his wife, while driving along a road near Bergen, were backed off a declivity and killed.

Consul Many writes that when the king passed the point soon afterward he placed a beautiful bouquet on the wooden cross marking the spot, and directed the chief official of the district to replace the wooden cross with a granite monument. This has been completed, and is an imposing shaft of rough hewn stone. On one face the circumstances of the accident are briefly given and on the other are the words "Oscar II erected this memorial."

The secretary of state has made suitable acknowledgment and has directed that our minister convey to the minister for foreign affairs a suitable expression in behalf of the secretary of state.

### NORTHWESTERN STORM.

It Has Abated After Doing a Vast Amount of Damage.

PORTLAND, Ore., Nov. 18.—The storm which prevailed over the northwest for three days past has abated and the weather is clear and cold. It is impossible to estimate the damage by floods to railroads, timbering interests and farm lands which have resulted from southern Oregon to British Columbia, but it will undoubtedly be many thousands of dollars.

The Oregon Railway and Navigation company and Southern Pacific have restored communication and trains are running again, though the Southern Pacific is compelled to use the West Side road on account of damage to the bridge over the Santia river at Jefferson.

The Northern Pacific is still blocked at Winlock, Wash., but it is expected trains will be running tomorrow. The greatest damage appears to have been on the White river and Black river valleys and in Skagit and Snohomish counties, Wash., where the railroads run through lowlands.

### JUDGE I. C. PARKER DEAD.

He Had Sentenced More Men to Death Than Any Other Judge.

FORT SMITH, Ark., Nov. 18.—Judge I. C. Parker, the famous Arkansas jurist, died at his home in this city at 2:30 o'clock yesterday morning of Bright's disease. Judge Parker was famous all over the country for his fearless administration of justice, having imposed the death penalty upon more criminals than any other jurist in the United States. For 21 years he had presided over court without missing a day.

In June last he was seized with an attack of heart failure but rallied. Friday, Nov. 13, he was again taken seriously ill, but withstood the attack and improved until noon Monday. Fatty degeneration of the heart was the cause of the first attack, and was augmented by Bright's disease, with complications.

### Indications.

## HANNA AND M'KINLEY

Conference Held at the Latter's Home.

### ITS IMPORT KEPT A SECRET.

The Cleveland Man Returns Home in a Happy Mood, Signifying That It Had Been Satisfactory to Him—Congressman Boutelle of Maine Has Been Summoned to Canton by the President-Elect.

CANTON, O., Nov. 18.—National Chairman Hanna came to Canton yesterday afternoon. He arrived over the Valley road at 1 p. m. in company with General Osborne, national secretary, who has been in Cleveland several days. President-elect McKinley went to the depot in the family carriage to meet the visitors. They drove direct to the McKinley home, where lunch was delayed until after their arrival.

This is the first time the president-elect and the national chairman have met since election.

After lunch a long conference was held between the three men in an upstairs room in the McKinley home. When the trio came downstairs Mr. Hanna's face beamed with good spirits and the good health that makes him look younger than when he actively entered the presidential contest as Mr. McKinley's friend over a year ago.

When a reporter asked him if a cabinet would be announced soon he simply said:

"You must ask the major," and the newspaper man knew that no asking would get any information on which to base an authoritative opinion on that subject at this time.

As Mr. Hanna was walking to the carriage for the train he was asked if he expected Major and Mrs. McKinley to go to Thomasville to sojourn with him at his winter home. He said he would be mighty glad if they would do it, but again referred that subject to Mr. McKinley, who said he had heard nothing from Mr. Hanna on the matter. Mr. Hanna returned to Cleveland at 4:15.

General Osborne remained here.

Hon. E. H. R. Green, chairman of the Republican state committee of Texas, ex-State Chairman J. N. Huston of Indiana, Charles Hedges of Galveston, Tex., and Hon. Tams Bixby, chairman of the Republican state committee of Minnesota, were among a score of callers awaiting an audience with Major McKinley during his talk with Mr. Hanna. The president-elect drove to the station with Chairman Bixby at 4:30. Other callers were Congressman D. K. Watson of Columbus and Rev. Dr. Weakly of Cincinnati, who was accompanied by Rev. Dr. Manchester, Major McKinley's pastor.

Major McKinley and Mrs. McKinley took a drive during the morning in the family carriage, the president-elect handling the lines. They drove about the city, returning home at 11:30 o'clock. The daily drives are doing a great deal toward bringing the tints of health back to Mrs. McKinley's face and she returns from each of them strengthened and refreshed.

### Boutelle Summoned to Canton.

SYRACUSE, Nov. 18.—Representative Charles A. Boutelle of Maine while returning home from Canton, O., yesterday, received a dispatch in this city from President-elect McKinley summoning him back to Canton. He left here at 4:30 p. m. for the west.

### SOVEREIGN RE-ELECTED.

No Change Made in the Highest Office in the Knights of Labor.

ROCHESTER, Nov. 18.—The principal business of yesterday's session of the Knights of Labor was the election of officers. James R. Sovereign, the present general master workman, was re-elected without opposition.

For the office of general worthy foreman there were but two candidates, Philip L. Almon, master workman of District 197, Jersey City, and Thomas B. McGuire of Amsterdam, N. Y., the latter being elected.

General Secretary-Treasurer John W. Hayes of New Jersey was re-elected without opposition.

For the general executive board, consisting of three members, there were eight nominations two of which declined. Henry B. Martin of Minneapolis, at present a member of the board; Andrew D. Best of Brooklyn, and Daniel Brown of Butte City, Mont., were elected.

It was voted by the general assembly to refuse to reorganize or sustain organizations of men who have taken the places of men on strike. This action was taken because in the past some of the organizations have been careless as to whom were admitted to membership.

### REVOLUTIONIZE TRANSPORTATION.

A Wonderful Powder Discovered That Will Generate Electricity.

CHICAGO, Nov. 18.—The Journal publishes a column article concerning the discovery of a vegetable powder which it is asserted will revolutionize transportation methods. The powder, when mixed with water, forms an electric battery, one cell of which is strong enough to run half a dozen incandescent lights. With two cells, a power of 110 volts is claimed.

The alleged discoverers are Washington S. Haskins, a colored policeman, and Lavall B. Rogers, formerly a theatrical man. The powder is claimed to be made from the roots of a common plant, the name of which is kept secret awaiting a patent.

For Kentucky—Fair, southeast winds.

CHIEF JUSTICE PRYOR, who was recently defeated for reelection, is spoken of as the next Democratic candidate for Governor. If there's any one in Kentucky who could unite the warring factions, he's the man.

THE population of Kentucky in 1890 was 1,858,653. In 1896, six years thereafter, if the number of voters voting in Kentucky are correctly reported, the population in Kentucky is 2,125,000, an increase in six years of 266,345 human beings. From this Kentucky is entitled to an additional Congressman, says the Frankfort Argus.

BREX MARSH continues to print in his news column the truth about the great revival of business since McKinley's election, while his editorials sing a different song.—Public Ledger.

Why can't the editor of the Ledger be just? If he will examine the late files of this paper he will find no editorials that "sing a different song." We sincerely hope the reports of the boom in business are true, and they are no doubt true to a large extent, but the editor of the Ledger knows well enough that this matter is systematically exaggerated. The depression that has lasted for years can't be driven out in a week or so; people must be patient, it will take time to effect a cure, and we'll know in a few years whether McKinleyism is the cure.

## A DIFFERENCE

In Your Two Hands, Your Two Feet, and Even Your Two Ears.

Of all the twin organs of the body, the ears are probably more alike than any other. Still, there is a difference. And so it is with other parts of the body.

One eye, for example, is generally more open than the other, and often there is a shade of difference in color between them. Oculists say, too, that it is rare—almost unique—to find two eyes in the same head that have exactly the same powers of vision. This arises from using one more than the other; and, like the hand, it is generally the right eye that is most frequently called into use, and is the stronger.

Few people not tailors have ever noticed that the right shoulder is generally lower than the left. They say that this arises from the almost universal habit men have of resting the left elbow on the desk while writing, and also to the equally prevalent custom of those who carry heavy burdens resting them on the right shoulder.

In arms and legs there is generally but a slight difference as regards length; but in size and strength the right arm and the left leg, being often used, are the more fully developed muscularly. It is the right hand and the left foot also which exceed their companions in size.

## ONE WAR LESS.

Italy and Brazil Have Kissed and Made Up Their Differences.

NEW YORK, Nov. 18.—The Herald's correspondent in Rio Janeiro, Brazil, telegraphs that a settlement of the Italian dispute has been arranged. Brazil will pay a stated sum in liquidation of all claims of Italy, except those which arose from outrages upon Italian subjects in Rio Grand do Sul, Santa Catharina, which will be submitted to a mixed arbitration committee.

Italy accepts the terms and promises to remove the Italian consul at Sao Paulo, Signor Brichanteau, who led a demonstration during the recent troubles in that city. Italians will also again be permitted to emigrate to Brazil.

## Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's agent, Columbus, Ohio, certifies Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, caused by la grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free trial bottles at J. James Wood's drug store.

Mr. Plummer was informed at the office of the clerk of the court of appeals that the court officials expect a decision in the Jackson and Walling cases on either Friday or Saturday of this week.

## KENTUCKY'S VOTE.

The Talk About Certain Counties Being Thrown Out Is Said to Be Nonsense.

FRANKFORT, Ky., November 16.—There has been much nonsense printed recently about the State Canvassing Board throwing out certain counties because of certain alleged irregularities in the election. The Canvassing Board has no power to throw out a county for any reason except where the returns made to said board are in such a shape that the result of the election in said county cannot be ascertained from said returns. In such a case the vote of that county is simply not counted. After the Canvassing Board announces the result of the vote, then the candidate who is not satisfied can go before the State Contesting Board, which is a separate and distinct body from the State Canvassing Board, though the members of the latter board are also members of the former.

The information given out at the Secretary of State's office is to the effect that the returns from McLean County are in such a condition that they cannot be intelligently counted. The Secretary has written to the County Canvassing Board of McLean to correct the returns, but so far the corrections have not been received.

Unless these corrections do come, the county of McLean cannot be counted, and this will increase the majority of Kash, the McKinley elector, by slightly over 400. The chances are, however, that the corrected returns will arrive in plenty of time to be counted, as Governor Bradley is quite sick with a bilious attack and may not be at his office for two or three days.

## Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the one true blood purifier. Its superior merit is an established fact, and merit wins.

Hood's Pills are easy to take, easy to operate. Care indigestion, headache.

AARON BRAXTON, colored, was before 'Squire Bramel this morning, charged with breaking into Otto's saloon Saturday night. He waived examination and the case was sent to the grand jury. He is accused of breaking into the saloon and stealing \$1.50.

LADIES, if you contemplate buying a cape or jacket, read Browning & Co.'s advertisement.

# Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

with severe pain across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. ## EAST LIMESTONE.

That parade was a daisy. We say with the poet money is power. Charley Case, Bernard's young merchant, has adopted the cash system.

Miss Kate Williams is visiting relatives and friends in Maysville this week.

Sheriff Jefferson was here Saturday summoning witnesses to attend the Kidder case.

Mrs. Hughs, of Concord, was visiting the family of Mr. Edward Little the past week.

Mrs. Charlie Breeze, of Maysville, is the guest of her sister, Mrs. Weed Breeze, at present.

It is much more exalting to be defeated with honor than to be honored with dishonor.

Two "wheels" did the work in the evening that four failed to accomplish in the morning.

George C. Williams has moved to the Deiterich suburb where he will engage in the nursery business.

Mrs. Tom Cummins returned to her home in Maysville Saturday evening on the down train from a visit to her sick mother, Mrs. Hickey.

Ollie Rash, of Rectortown, who is traveling in the interest of the Singer Sewing Machine Company, spent Sunday with the family of his uncle, E. Meyers.

Dave Stewart, of Brown County, O., returned home Sunday evening after a short visit to his sister, Mrs. Byron, and old friends of this neighborhood.

Cyrus Case bought 100 bushels of corn Friday delivered in his crib at 20 cents per bushel. A gentle reminder to the corn producer that the single gold standard is still with us.

As the farmers are paying their taxes they are becoming quite indignant at the injustice practiced on them of having to pay the 20 cents for free pikes and yet have to pay exorbitant toll. They feel that it is an imposition, unjust and unreasonable.

The absence of the white Republicans was conspicuously noticeable in the parade Saturday evening. They don't seem to like to mix with the colored brethren. Well the election is over now, and they don't have any further use for them for awhile.

The greatest applause and outbursts of the recent victorious party cannot but pale into insignificance when they note the magnificent showing of Bryan's race in the face of many obstacles such as the combined money power of the East, the annexation to the Republican or single gold standard party of many Democrats and those too that we once delighted to acknowledge as our standard-bearers, and last but not least many campaign fallacies. Where would McKinley have been had he had these obstacles to contend with?

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an almost insurmountable task. Nervousness, sleeplessness and pain harass her and life seems hardly worth the living.

Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for ill distinctly feminine, the other for her general system. Together they supply a scientific and successful course of treatment. The "Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollow in cheeks and neck with good solid flesh and brings back the glad glow of girlhood.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.

"CHRIST On the Cross, and Why," was the subject of Rev. S. D. Dutcher's sermon at the Christian Church last night. There was one confession. At the close of the discourse two persons were baptised. ## LOUISVILLE TOBACCO MARKET.

Prices For Burley Fully as High as at Any Time This Fall—The New Crop.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amount to 1,749 hhds. with receipts for the same period 529 hhds. Sales on our market since January 1st amount to 146,328 hhds. Sales of the crop of 1895 on our market to this date amount to 141,418 hhds.

Owing to the great interest in the Presidential election the warehouses concluded it was best not to have any auction sales during that week, so there was no tobacco sold at public outcry until last week.

The burley market opened on Tuesday a little irregular and some easier, but continued to improve and closed strong with prices fully as high as at any time this fall. A few hogsheds of new burley were sold, and the market for such was decidedly better. With a good handling season we would expect a decided increase in receipts and sales.

The following quotations fairly represent our market for burley tobacco (1895) crop:

Trash (dark or damaged).....	1 00@1 50
Common color trash.....	2 50@4 00

## WORK OF THE WOMEN.

### The Y. M. C. A. Committee Taking Steps to Aid in Furnishing the New Rooms.

The ladies appointed as a Woman's Committee to assist the local Young Men's Christian Association in furnishing its new quarters and in promoting its work, met again on Tuesday afternoon, first inspecting the new rooms in the Zweigart Block and then adjourning to the Cox Building, where the duties of the committee were thoroughly discussed and plans were adopted.

The committee have decided to raise a ladies' furnishing fund, by means of personal solicitation, and commencing this week each ward of the city will be thoroughly canvassed by members of the committee and any who may be asked to assist them, as follows:

First Ward—Mrs. R. A. Cochran, Mrs. W. H. Cox, Mrs. Holt Richeson, Miss Martha Stevenson.

Second Ward—Miss Nettie Robinson, Miss Mary January.

Third Ward—Miss Grace Bierbower, Mrs. Jas. Hall, Mrs. Jos. H. Dodson, Miss Lizzie Trouts.

Fourth Ward—Mrs. M. C. Russell, Miss Amy Phister.

Fifth and Sixth Wards—Mrs. Sam'l M. Hall, Mrs. H. C. Sharp and assistants.

As the work of the association is one that effects directly or indirectly the homes and general welfare of our community, it is hoped that every lady in the city will feel interested in helping in this cause. Any subscription, however small, even if not more than a nickel or a dime, will be appreciated, and it is hoped that several larger contributions will also be given by those who can afford to donate liberal amounts. It is hoped that at least \$200 will be secured.

The Chairman, Mrs. Jos. H. Dodson, appointed the following sub-committees, after which the meeting was adjourned, to meet again next Monday afternoon at 3 o'clock and report the progress of the canvass:

Rooms—Mrs. H. C. Sharp, Miss Amy Phister, Miss Grace Bierbower.

Socials and Receptions—Mrs. Wm. H. Cox, Mrs. S. M. Hall, Mrs. M. C. Russell, Miss Nettie Robinson, Miss Mary January.

## JAMES WINTER KILLED.

He Was Walking on the C. and O.'s Tracks and Did Not Hear the Train—Once Lived in This County.

Mr. James Winter was struck by a C. and O. freight train at St. Paul, seven miles west of South Portsmouth at 10 o'clock Tuesday morning and died in less than an hour of his injuries. The train was an eastbound freight and was running thirty-five miles an hour when it struck the unfortunate man. His skull was fractured and he was otherwise injured, but his body was not mangled in any way. The Portsmouth Times says: "Mr. Winters had a narrow escape from being killed by a C. and O. train about five years ago. He was walking on the track when the pay car came up behind him. He did not hear it. His daughter Mary saw the danger, and running to him, shoved him headlong off the track from in front of the locomotive, just in the niche of time. It was a brave act, and the C. and O. officials presented her with a beautiful medal."

Deceased married a Miss McClanahan, sister of the Messrs. McClanahan of this city. She survives, and he leaves five children,—among them Miss Maggie Winter and Mrs. Florence Brown, of West Third street, this city.

Mr. Winter formerly resided at Minerva, this county.

### People Going South For Lands and Homes.

"It is remarkable," said Jackson Smith, Division Passenger Agent of the Louisville and Nashville railroad, to the Enquirer man, "how many people north of the river are taking an interest in lands and homes in the South. We sold one way tickets Monday at one and half cents per mile, and round trip tickets at the same rate. Our through trains had to carry extra coaches to accommodate the increased business, and we intend to sell tickets at the same rate as above on the second and last Tuesdays of each month until next May. We have found it advisable to do this on account of the great tendency on the part of people in the North to visit the South to look for land and homes."

### An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. ### The "Squirrel Hunter" May Quit Base Ball.

KNOXVILLE, TENN., Nov. 16.—Wiley Davis, the squirrel hunter from the mountains of East Tennessee, who made quite an enviable reputation last season as a ball player and who had been retained by Buck Ewing for the 1897 season, will perhaps not be seen on the ball diamond again. Since the season closed Wiley has been on his father's farm in Blount County and has been improving his time by attending a revival at a little country church in the neighborhood. Wiley has concluded that he needed less base ball and more religion, so he professed religion. On January 1 he will enter school at Marysville, and perhaps study for the ministry. Davis' younger brother was here to-day in the Marysville football team.

MUNCIE, Ind., Nov. 18.—The prevalence of contagious diseases, more particularly diphtheria and scarlet fever, is causing much anxiety in this county. Three schools have been closed, and unless there is an improvement others will be closed. Several months ago there was a severe epidemic of diphtheria, but by the exercise of great care the disease was practically wiped out, only a few scattering cases remaining. Several weeks ago, however, notwithstanding the precautions of physicians, numerous cases developed, and to make matters worse, the people grew negligent of health rules, although Dr. Hugh A. Cowing kept them standing in all of the local newspapers.

Scarlet fever also developed with alarming rapidity, and today the county is in the throes of the worst epidemic of contagious disease it has experienced for years. The reports of physicians show that the diphtheritic cases in the county will exceed 100, while the number of scarlet fever cases is placed at 50. Dr. Cowing is very wrath because of the carelessness of the people and their disregard of health regulations, concerning which he says that he will now be compelled to adopt forcible measures, and to that end the attention of the grand jury will be drawn to all known violations of the health law, and the enforcement of the penalty will be demanded. In this he will have the support of the secretary of the state board of health.

#### Light Sentence For a Murderer.

MUNCIE, Ind., Nov. 18.—Francis J. Gallagher, who murdered Joseph Reid and James Dugan, was yesterday sentenced to two years in prison. The jury was out 12 hours. Gallagher is 21. He was tried last June for murdering Reid, and sentenced to 21 years. A new trial was granted. This time the prosecution had him tried for murdering Dugan. The prosecution will attempt to have him tried again for the murder of Reid, but it is probable the court will rule out the first charge. The murder of Dugan was committed with a pen-knife, and the blade was found in Dugan's brain three days later.

#### Doings of the Mint.

WASHINGTON, Nov. 18.—The records of the treasury department show that from Feb. 1, 1896, to Nov. 1 there were coined at the mints of the United States 16,262,192 standard silver dollars from the balance of silver bullion on hand purchased under the act of July 14, 1890. The seigniorage upon this amount was \$5,051,430, which has been turned into the treasury. The balance of the silver bullion purchased under the act of 1890 on hand Nov. 1, 1896, was 125,061,263 fine ounces, which cost the government \$112,865,625. The coinage value of this amount is \$161,693,000.

#### No Prospect For a Settlement.

TERRE HAUTE, Ind., Nov. 18.—The convention of bituminous coal miners met here yesterday but transacted no business other than to hear reports from the various locals. These reports indicate that the miners are still resolute and are determined to stand out for a 60-cent scale. The operators have not made any overtures for a joint conference. President Knight of the miners' association reports that he does not see any prospect for a settlement of the strike.

#### Strange Disappearance.

HARTFORD CITY, Ind., Nov. 18.—James G. McColly, a wealthy farmer north of this city, is much exercised over the disappearance of his son Amizah, who drove away from his home last Sunday night and is still missing. Amizah came home from

church, hitched a horse to a buggy and drove away without saying where he was going. He is but 17 years old and inexperienced, without money and no friends within 200 miles.

#### Body Turned to Stone.

ELWOOD, Ind., Nov. 18.—While reintering the remains of Mr. and Mrs. Robert Layne, deceased parents of the late Professor Joseph Layne, the coffin containing the body of Mrs. Layne, who died five years ago, was found to be so heavy that 12 strong men were required to lift it. Upon investigation it was found that the body had turned to stone.

#### Result of a Cruel Joke.

KOKOMO, Ind., Nov. 18.—James Cunningham, for a joke, fired a blank cartridge in the face of Henry Galloway, filling both cheeks and eyes with coarse-grained powder. It is feared that the injury will produce total blindness.

#### Barred From the Mails.

WASHINGTON, Nov. 18.—The postmaster general by fraud orders has barred the mails against Martin Bruckman, George R. Dixon and Charles Cook of Cincinnati; and A. Hess of Cynthiana, Kentucky.

#### More Gain in the Gold Reserve.

WASHINGTON, Nov. 18.—The treasury yesterday lost \$34,300 in gold coin and \$29,700 in bars, which leaves the true amount of the reserve \$126,181,088. The net gain in gold yesterday was \$383,000.

#### Run Down by an Engine.

BUFFALO, Nov. 18.—William L. Bronson, a Wagner palace car conductor from St. Louis, was run down by an engine in the Central train shed yesterday. Both feet and his right hand were crushed and will have to be amputated.

#### Society Woman Suicides.

TORONTO, Nov. 18.—Mrs. Bourlier, wife of Henry Bourlier, agent for the Allan Steamship company, shot herself yesterday and died soon afterward.

#### ENGLAND GETS LEFT.

**Fifty-Year Occupancy Clause Will Give Great Britain but Little of Venezuela.**

WASHINGTON, Nov. 18.—Ex-Minister Scruggs, who is acting as counsel for the Venezuela government, called at the White House yesterday, but owing to the cabinet meeting, did not see the president.

Mr. Scruggs says the effect of the clause making 50 years essential to constitute "settled districts" in the Venezuela boundary dispute will be to give Venezuela the entire Barima gold country, which is the most valuable tract in Venezuela, and also the entire Orinoco river country, including the waterway itself, the bank, the mouth and the islands of the mouth. The British have a coaling station and rendezvous on one of these islands, but Mr. Scruggs says the occupancy began in 1886 and cannot possibly come within the 50-year term of the settlement.

In Mr. Scruggs' opinion the evidence will narrow the British 50-year occupancy to the small strip of land, triangular in form, between the Cuyuni and Pomeroon rivers. This is far to the east and south of the valuable Orinoco and Barima country, which constitutes the great issue at stake.

The brief prepared at Caracas by the commission of distinguished jurists has been received and translated, but will not be presented to the Venezuelan commission at present, owing to the settlement made by Mr. Olney and Lord Salisbury. The brief is in substance the same as those of Mr. Scruggs and Mr. Storow, the American counsel for Venezuela.

#### BIKES.

[With apologies to Rudyard Kipling.]  
Of all the vile inventions, misbegotten by mistake,  
The thing they call the bicycle does surely take the cake.  
'E's ugly, an' 'e's vulgar, an' 'e's dangerous to ride,  
An' 'e fills the man as rides 'im with a sort of beastly pride.

Oh, the bike, oh, the bike, oh, the scarin, tarin bike!  
'E's jist a 'oly terror goin scorchin down the road.  
With a grinnin idiot clingin to the 'andles monkeylike,  
'Is shoulders 'unched above 'im like a 'umpy sort o' toad.

You thinks you'll learn to ride 'im coz it don't look 'ard at all,  
But you've got to get acquainted jist with hevery kind of fall.  
You've got to learn 'ow gravel feels a-stickin in your jaw,  
An what it is to 'ave your knees an knuckles always raw.

Oh, the bike, oh, the bike, oh, the wabblin, hobblin bike!  
A-reelin an-a-staggerin to an fro acrost the road;  
You may 'it 'im if you're fast enough an cuss 'im if you like,  
But 'e picks you out the 'ardest place an then 'e sheds 'is load.

An when you've learned to ride a bit an thinks afield to roam  
The blasted thing collapses 'bout twenty miles from 'ome,  
With 'is bloomin bellers busted, or it may be somethin wuss,  
An you 'as to wheel 'im 'ome again, an lor, 'ow you does cuss!

Oh, the bike, oh, the bike, oh, the stumblin, tumblin bike!  
The wily 'ily spider wheel a-grinnin where 'e lies.  
Oh, ain't it jam to shove 'im when 'is works is on the strike,  
An every 'arf a mile or so you stops to damn 'is eyes!

They say it's lovely hexercise; you'll think so pretty soon,  
Same as a railway haccident, a hearthquake or typhoon.  
When you turns a slippy corner an 'e slides an falls down dead,  
An you finds you're takin hexercise a-standin on your 'ead.

Oh, the bike, oh, the bike, oh, the thumpin, bumpin bike!  
'E'll shake your mortal soul out when 'e gets on stony ground;  
You 'ave to shove 'im up the 'ills an down 'em both alike,  
For if 'e runs away with you, you might as well be drownin.

The 'orse 'e goes by rein an bit, the coster's moke's a moke,  
The 'ansom cab's a daisy, an the rickshaw's jist a joke;  
But the bike's a 'orrid mixture, as on 'is face 'e shows,  
Of a treadmill an a 'brellar frame an a length of garden 'ose.

Oh, the bike, oh, the bike, oh, the lanky, cranky bike!  
'E's twenty ways of fallin down an can't stand up alone,  
If there's a stone within a mile, you bet yer life 'e'll strike,  
'E tumbles down an chucks you, an it's odds you breaks a bone.

'E takes the bit between 'is teeth a-goin down a 'ill,  
An you loses both your treadles, an you comes a hawful spill,  
An you breaks your knees an noses, an wi' luck you breaks your neck,  
An that there blessed bicycle's a 'ideos, tangled wreck.

Oh, the bike, oh, the bike, oh, the rustin, bustin bike!  
You leaves 'im in the duck pond lyin on 'is slimy bed.  
'E may rot 'isself to pieces jist as quickly as 'e like,  
An you thank your stars an garters it's 'im, not you, that's dead.

BELLAIRE, O., Nov. 18.—The Belmont coal mines are closed. The 70 miners employed went out on a strike. They want their old wages, 61 cents, restored. They will not return to work at the reduction, but will receive the old wage, it is said.

WINCHESTER, O., Nov. 18.—The reports sent out from West Union that diphtheria is raging in this county to an alarming extent, is without foundation. No deaths have occurred as have heretofore been reported.

#### Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
